Top Courses After 12th PCMC

1. Engineering (B.E / B.Tech)

Best if: You like math, technology, machines, or coding.

Popular branches:

Computer Science Engineering (CSE)

Electronics and Communication (ECE)

Mechanical, Civil, IT, etc.

Entrance exams: JEE Main, KCET, COMEDK, etc.

2. B.Sc. (Bachelor of Science)

Best if: You love subjects like math, computers, or physics.

Options:

B.Sc. in Computer Science / IT

B.Sc. in Mathematics / Physics / Electronics

B.Sc. in Data Science / Artificial Intelligence

Can lead to research, teaching, or higher studies (M.Sc., PhD).

3. BCA (Bachelor of Computer Applications)

Best if: You want to build a career in software, coding, or app development.

Easier than engineering, but good for careers in IT.

4. BBA / BBM (Management field)

Best if: You want to enter business, marketing, or management.

You can do MBA after this.

5. Design / Architecture

Courses: B.Des (Design), B.Arch (Architecture)

Exams: NATA, UCEED

6. Law (5-year Integrated LLB)

Course: B.Sc. LLB or B.Tech LLB (few colleges)

Entrance: CLAT

7. Defence (NDA)

If you're interested in joining the Army, Navy, or Air Force.

Emerging Career Options

B.Sc. in Artificial Intelligence / Cybersecurity

Ethical Hacking & Cybersecurity courses

Data Science or Machine Learning

Animation & VFX

Game Development

Cloud Computing

Q How to Decide?

Ask yourself:

Do I like coding or software? \rightarrow B.Tech (CSE), BCA, B.Sc. CS

Do I want to work in defense or serve the country?

→ NDA

Do I like solving problems and creating things? → Engineering or Design

Do I want a career in business? → BBA

☐ My Suggestion (If You're Still Confused):

Take BCA or B.Tech in CSE, because:

High job demand (IT, AI, Software)

Good salary opportunities

You already have Computer Science background

Want help selecting colleges, entrance exams, or career roadmap? Just tell me your interests and location (state/city), and I'll guide you.

You said:

i am not writing kcet

ChatGPT said:

Got it! Since you're not writing KCET, here are the best options after 12th PCMC without KCET:

- ✓ Top Courses You Can Join Without KCET
- 1. Direct Admission in BCA

BCA (Bachelor of Computer Applications) is one of the best courses for PCMC students who love coding, computers, or want to work in IT.

No entrance exam needed in most colleges.

Available in top colleges like:

Christ University (Bangalore)
Jain University
St. Joseph's College
Presidency University
You can later do MCA or MBA.
2. B.Sc. Computer Science / Data Science / Al Great for students interested in:
Programming
Data Science
Artificial Intelligence
Cybersecurity

Available in many good private universities.

No entrance exam required (admission is based on 12th marks).

3.

B.Tech / B.E. through Management Quota You can still join Engineering without KCET via:

Management quota

COMEDK exam (if willing to write)

Direct admission in private colleges

Top courses:

CSE (Computer Science)

IT

AI & ML

ECE

4. BBA (Bachelor of Business Administration)
If you're interested in business, startups, or management.

After BBA, you can do MBA for a strong career.

No KCET needed.

5. ② Design, Animation & Multimedia Courses like:

B.Des (Design)

B.Sc. Animation

Game Design, UX/UI

Offered in private colleges like:

LISAA School of Design

Arena Animation

Jain University

6. Pathical Hacking / Cybersecurity / IT Diplomas

Short-term diploma courses after 12th (6 months to 2 years)

Great if you're interested in hacking or cybersecurity

You can also combine with BCA or B.Sc.

What Should You Do Now?

If you like computers / IT \rightarrow Go for BCA or B.Sc. Computer Science

If you want job after 3 years \rightarrow Choose BCA or B.Sc. with internships

If you want engineering feel (without KCET) → B.Tech via management quota

If you want business career → Choose BBA

Would you like help finding colleges near you or a career path based on your interests? Just tell me:

Your state or city

What you like: coding, hacking, business, designing, etc.

I'll guide you further with real options.

You said:

can i go for this Ethical Hacking / Cybersecurity

ChatGPT said:

Yes, you absolutely can go for Ethical Hacking or Cybersecurity after 12th PCMC — especially since you studied Computer Science. In fact, it's one of the best and fastest-growing fields right now with high salary potential (§).

What Is Ethical Hacking / Cybersecurity?

It's about protecting computer systems from hackers, viruses, and cyber-attacks. Ethical hackers (also called white-hat hackers) test systems to find vulnerabilities before real hackers do.

Why It's a Great Choice for You

You have a Computer Science background (PCMC)

No KCET required

Huge job demand in India and abroad

Can work in government, IT companies, banks, etc.

You can earn certifications while studying (adds big value)

□ How to Get Started

Option 1: Do BCA or B.Sc. Cybersecurity Colleges offer full degrees focused on:

Cybersecurity

Ethical Hacking

Digital Forensics

Example colleges:

Jain University (Bangalore)

Amity University

VIT Vellore

Chandigarh University

MIT-WPU Pune

Option 2: Do BCA / B.Sc. CS + Cybersecurity Courses

Do a normal degree like BCA, and along with that:

Take short-term cybersecurity courses online or offline

Get certifications like:

CEH (Certified Ethical Hacker)

CompTIA Security+

Cisco (CCNA Security)

Google Cybersecurity Certificate (free/paid)

EC-Council Essentials (for students)

Option 3: Diploma Courses (1–2 years)

If you don't want a degree right now:

Diploma in Cybersecurity

Diploma in Ethical Hacking

Offered by NIIT, Jetking, IIHT, and others

Career After Cybersecurity

Cybersecurity Analyst

Ethical Hacker

Penetration Tester

Network Security Engineer

Cyber Forensics Expert

Government/Police Cyber Cell

Salary Range

Freshers: ₹3-6 LPA

With 2-3 years experience: ₹6-12 LPA+

Abroad (like US, UAE): ₹20 LPA and higher

☐ My Suggestion

If you're really interested in hacking and security:

OR directly take a B.Sc. Cybersecurity course

Practice with online platforms like TryHackMe, Hack The Box, CyberSecLabs

Want me to help you find best colleges or free courses for cybersecurity? Just say:

"Show me best cybersecurity colleges or online courses"

I'll guide you 100%.

You said:

any college jions without ket

ChatGPT said:

Yes! There are many colleges in Karnataka and India where you can join without KCET for courses like BCA, B.Sc. Cybersecurity, B.Sc. Computer Science, Ethical Hacking, etc.

Here's a list of good colleges you can join directly (no KCET required):

In Karnataka (Especially Bangalore):

Jain University, Bangalore

Courses: BCA, B.Sc. Cybersecurity, B.Sc. CS

Known for tech and hacking courses

Direct admission available

Kristu Jayanti College, Bangalore

BCA, B.Sc. Computer Science, Data Science

Great placement support

St. Joseph's College, Bangalore

BCA, B.Sc. CS

No KCET required, direct or entrance-based admission

Presidency University, Bangalore

BCA, B.Sc. Cybersecurity, AI/ML

Direct admission based on 12th

Acharya Institute of Graduate Studies, Bangalore

BCA, B.Sc. CS, Cybersecurity

Industry-focused curriculum

Dayananda Sagar University

BCA, B.Tech (via management quota), B.Sc. in Al/Cybersecurity

No KCET needed for BCA or B.Sc.

New Horizon College, Bangalore

BCA, B.Sc. Computer Applications

Good for IT and software

↑ Other Popular Colleges in India (Direct Admission):

VIT Vellore / Chennai

BCA, B.Sc. Cybersecurity, Data Science

Entrance OR direct depending on course

Amity University

BCA, B.Sc. CS, Cybersecurity

Direct admission available online

Chandigarh University

BCA, B.Sc. Cybersecurity, Al

Known for strong placement & tech

Lovely Professional University (LPU)

BCA, B.Sc. Cybersecurity, Ethical Hacking

Scholarships based on 12th %

Documents Required for Admission (General)

12th Marks Card

Transfer Certificate

Aadhar Card

Passport size photos

What You Should Do Next

Choose your course: BCA / B.Sc. Cybersecurity /

Ethical Hacking

Decide if you want to study in Bangalore or another city

I can help you:

Find colleges near your location

Get direct links for admission

Find colleges with hostel, placements, and fees under your budget

Just tell me:

Which city or state do you want to study in?

Your 12th %?

Which course you prefer most: BCA, B.Sc. Cybersecurity, Ethical Hacking, or other?

I'll show you best colleges for direct admission without KCET based on that.

You said:

i don t want bca

ChatGPT said:

Perfect! Since you don't want to do BCA, and you're from a PCMC background, and interested in Ethical Hacking / Cybersecurity, here are top alternatives to BCA that you can join without KCET:

✓ Best Non-BCA Courses for Cybersecurity / Hacking (No KCET Needed)

1. B.Sc. Cybersecurity / Ethical Hacking Full 3-year degree focused only on:

Ethical Hacking

Cyber Laws

Network Security

Malware Analysis

Great for hacker/defender jobs

Offered in:

Jain University, Bangalore

Chandigarh University

MIT-WPU Pune

REVA University, Bangalore

Amity University

Presidency University, Bangalore

2. ☐ B.Sc. Computer Science with Cybersecurity Specialization

Broader than BCA, focuses on:

Operating Systems

Programming

Security tools (Kali Linux, Wireshark)

↑ Colleges:

Christ University

St. Joseph's College, Bangalore

Mount Carmel College

3. □ ■ Diploma in Cybersecurity / Ethical Hacking (1–2 Years)

If you want faster, skill-based training

Focused training + certification

Indian Institute of Hardware Technology (IIHT)

Jetking

Aptech

EC-Council ATC centers

4. Integrated Courses (B.Sc. + Certifications)
Some colleges offer:

B.Sc. Cybersecurity + CEH (Certified Ethical Hacker)

B.Sc. + CompTIA Security+

Adds professional value to your resume

Ideal Path (If You Want a Career in Hacking/Cybersecurity)

Step What to Do Details

- 1 Take B.Sc. Cybersecurity / Ethical Hacking No KCET needed
- 2 Start online practice (free/paid) Platforms: TryHackMe, Hack The Box
- 3 Get certified (CEH, CompTIA Security+) Even while studying
- 4 Apply for internships from 2nd year Start building portfolio
- 5 Apply for jobs or go for M.Sc. Cybersecurity after graduation High salary in India & abroad
- Sample Courses You Can Learn Alongside
 Course Learn Where

CEH (Certified Ethical Hacker) EC-Council / Simplilearn / Udemy

Google Cybersecurity CertificateCoursera

Kali Linux / PenTesting TryHackMe, Hack The

Box

Just answer:

Which city you want to study in?

Do you prefer college or online + diploma path?

Your budget range for course/college?

I'll find you the best colleges (without KCET) and guide you step-by-step for admission into Cybersecurity.

You said:

gujurat college

ChatGPT said:

Great! You're looking for Cybersecurity / Ethical Hacking colleges in Gujarat that you can join after 12th PCMC and without KCET — perfect choice!

Here are the top colleges in Gujarat where you can study B.Sc. Cybersecurity / Ethical Hacking or related tech programs:

¶ Ganpat University, Mehsana
 Course: B.Sc. Cyber Security & Forensics

Focus: Ethical Hacking, Network Security, Cyber Laws

Placement support + Industry Certifications

↑ Location: Near Ahmedabad

Website: www.ganpatuniversity.ac.in

Parul University, VadodaraCourses:

B.Sc. Cybersecurity

B.Sc. Computer Science + Cyber specialization

Modern labs, practical learning
☐ Admission based on 12th marks (no entrance)
(#) Website: www.paruluniversity.ac.in
3. Nirma University, Ahmedabad Course: B.Tech in Computer Science with Cybersecurity electives
Top-ranked private university
May require university-level entrance or merit- based
Website: www.nirmauni.ac.in

4. TM Vocational University, Vadodara Course: B.Sc. Cyber Security

Offers hands-on practical training with security tools

Direct admission possible based on 12th

Website: www.itmvu.in

5. 🖺 Silver Oak University, Ahmedabad Course: B.Sc. IT / Cybersecurity

Affordable private university

No entrance required

Math)

Website: www.silveroakuni.ac.in

What You Need for Admission:12th pass with PCMC or PCM (Physics, Chem,

Usually no entrance exam

Just apply directly on the university website

Want Direct Help Applying?

Reply with:

Which course: B.Sc. Cybersecurity / B.Sc. CS?

Any city preference: Ahmedabad, Vadodara, etc.?

Your budget (per year)?

I'll help you:

Pick the best college for your needs

Get the direct admission links

Guide you with the online application

Want me to show free cybersecurity certifications or online hacking labs too?

You said:

can karnatka person can jion

ChatGPT said:

Yes! ✓ A Karnataka student can definitely join Gujarat colleges — including Ganpat University, Parul University, Silver Oak University, and others.

You don't need to be from Gujarat to get admission. These colleges accept students from all over India, including Karnataka.

Admission Process for You (from Karnataka to Gujarat):

No KCET needed

Apply directly through the college website or visit the campus

Submit:

12th Marks Card (PCMC is accepted)

Transfer Certificate (TC)

Migration Certificate (from Karnataka board)

Aadhaar Card

Passport-size photos

¶ Important Notes:

You will be treated as an "Out-of-State" student, but:

No special entrance exam

Admission is usually based on 12th marks

Some colleges may offer hostel and food facilities for outside students

⊫ Hostels & Campus Facilities

Most private universities in Gujarat like Parul and Ganpat have:

Boys & Girls Hostels

South Indian food options

Medical & Wi-Fi facilities

Karnataka/Tamil/Malayalam students already studying

✓ What You Can Do Now:

If you're interested, I can:

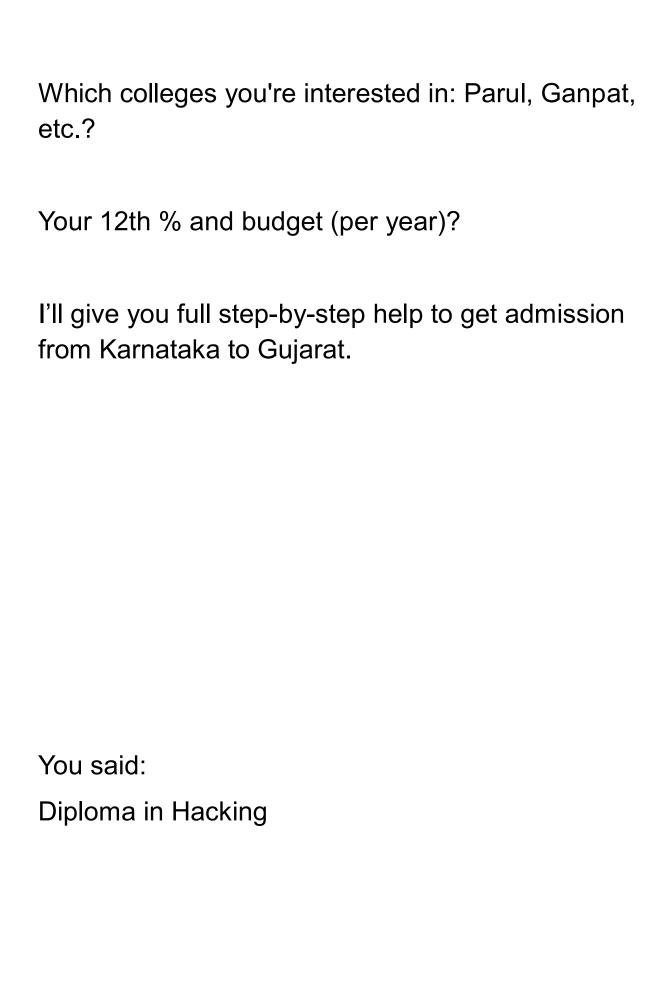

Give you direct application links

& Help you contact the admission office

Assist with the migration certificate process from Karnataka

Just tell me:

Which course: B.Sc. Cybersecurity / B.Sc. CS / Diploma in Hacking?

ChatGPT said:

Great! You're interested in a Diploma in Hacking — that's a smart and fast-track option if you want to start a career in Ethical Hacking and Cybersecurity without doing a full degree like BCA or B.Sc.

What is a Diploma in Ethical Hacking?

A Diploma in Ethical Hacking is usually a 6-month to 2-year practical course that focuses on:

Penetration Testing

Network & Web Security

Kali Linux, Metasploit

Ethical Hacking Tools

Cyber Laws and Forensics

You don't need any entrance exam — just 12th pass (PCMC) is enough ✓

Top Institutes Offering Diploma in Ethical Hacking (Open for All India Students)

1. Jetking Infotrain (Centers in Ahmedabad, Bangalore, etc.)

Course: Diploma in Ethical Hacking & Cybersecurity

Hands-on labs, job support, placement help

Duration: 6 months to 1 year

Website: www.jetking.com

2. Indian Institute of Hardware Technology (IIHT)

Course: Diploma in Ethical Hacking

Focuses on practical hacking labs

Centers in Bangalore, Ahmedabad, Mumbai

Website: www.iiht.com

3. Appin Technology Lab

One of the oldest cybersecurity training centers

Course: Advanced Diploma in Cyber Security

Offers Ethical Hacking + Internship

Locations: Ahmedabad, Surat, etc.

Website: www.appinonline.com

4. Indian Cyber Security Solutions (ICSS)

Online + offline courses

Offers diploma in Ethical Hacking & Pen Testing

Website: www.indiancybersecuritysolutions.com

EC-Council ATCs (Accredited Training Centers)
 Offers CEH (Certified Ethical Hacker) Training

Valid globally

You can do CEH instead of diploma — more value!

Website: www.eccouncil.org

Online Diploma / Hacking Labs (Good with or without college)

TryHackMe – Free & Paid labs (best for beginners)

Hack The Box – Practical hacking training

Cybrary / Udemy / Coursera – Online courses on Ethical Hacking Google Cybersecurity Certificate – Job-ready course (Coursera)

What You Can Do Now If you're ready to join:

Choose online or offline (in Gujarat or Bangalore)?

Tell me your budget and preference (quick job, deep study, etc.)

I'll give you exact steps + admission link

Would you like me to find the best diploma course for you in Gujarat or recommend an online diploma you can start today?

You said:

how much years that

ChatGPT said:

A Diploma in Ethical Hacking or Cybersecurity usually takes:

- Duration of Diploma in HackingType of Diploma Duration Details
- Short course, mostly online or at institutes like Jetking, IIHT
- Professional Diploma 1 year In-depth course with practical labs, tools like Kali Linux, Metasploit
- Advanced Diploma 1.5 to 2 years Covers
 Ethical Hacking + Cybersecurity + Digital
 Forensics

Example:

Jetking: 12-month Diploma in Cybersecurity & Ethical Hacking

Appin Labs: 6–12 months Ethical Hacking & Cyber Forensics

IIHT: 6 to 18 months (modular options)

EC-Council CEH: Around 4–6 months training + certification

□ ■ Job Possibility After Diploma?

Yes! After 6–12 months of training, you can work as:

Ethical Hacker (Junior)

Cybersecurity Analyst

Network Security Executive

Penetration Tester (Entry level)

✓ Summary:

Minimum time: 6 months

Recommended: 1 year for better knowledge + job chances

Max (Advanced Diploma): 2 years (with internships/project work)

Would you like a list of diploma colleges/institutes in Gujarat or Bangalore with fees and application links?

You said:

after can i jion to cybersecurity

ChatGPT said:

Yes, definitely!

After completing a Diploma in Ethical Hacking, you can absolutely join Cybersecurity as a career or even pursue higher studies like a Bachelor's degree or professional certifications.

What You Can Do After a Diploma in Hacking:

1. Get a Job in Cybersecurity

You can work in:

Cybersecurity Analyst (Entry-level)

Network Security Technician

Penetration Tester (Junior)

Security Support / SOC Analyst

If you want to go further, you can do:

B.Sc. Cybersecurity

B.Sc. Information Security

B.Tech in CSE with Cybersecurity specialization

Most colleges will accept you even after a diploma (you may even get lateral entry in some cases)

This will give you more career options, higher pay, and better long-term growth.

3. Do Cybersecurity Certifications

These are international-level certifications and are highly respected:

CEH (Certified Ethical Hacker) – EC-Council

CompTIA Security+

Google Cybersecurity Certificate (via Coursera)

Cisco CCNA Security

OSCP (for advanced hackers)

4. Start Freelancing / Bug Bounty If you're confident, you can:

Work on platforms like HackerOne, Bugcrowd

Do freelance security testing

Build a GitHub or LinkedIn portfolio

K Final Path Example:

pgsql

Copy

Edit

- → 12th (PCMC)
- → Diploma in Ethical Hacking (6 months 1 year)
- → Entry-level job OR B.Sc. Cybersecurity
- → Add Certifications (CEH, Security+)
- → Career in Cybersecurity / Ethical Hacking

Want Help Choosing What's Next?

Just tell me:

Diploma institute you're planning to join (or already joined)

☐ Do you want a job after diploma or continue to a degree course?

I'll guide you step-by-step.

You said:

i want min 15 lpa

ChatGPT said:

Awesome — aiming for ₹15 LPA (Lakhs per annum) is bold and absolutely possible in Cybersecurity, but you need a smart plan, strong skills, and global certifications.

Let me give you a clear roadmap.

③ Goal: ₹15 LPA in Cybersecurity

You can reach ₹15 LPA within 3 to 5 years, or even earlier with the right moves.

- Step-by-Step Path to ₹15 LPA
- Step 1: Diploma in Ethical Hacking or Cybersecurity (6 months 1 year)

Learn basics: Linux, Networking, Hacking Tools, Wireshark, Metasploit

Choose a good institute (Jetking, IIHT, Appin, etc.)

- Parallel: Start building your own portfolio (GitHub, LinkedIn)
- Step 2: Get Global Cybersecurity Certifications
 To earn high salary, certifications matter more than
 a degree.

Cert Cost Time to complete Salary Boost

- CEH (Certified Ethical Hacker) ₹50K–₹70K3–6 months Big jump
- CompTIA Security+ ₹30K–₹40K 2–4 months Beginner-friendly
- OSCP (Advanced Ethical Hacker) ₹1.2L+ 6 months High-end job
- Google Cybersecurity Certificate ₹0–₹6K (via Coursera) 3 months Easy entry

With CEH + OSCP + good projects → ₹15 LPA becomes realistic

Step 3: Get Real Projects + Work
Start with internships or freelance

Work in SOC (Security Operations Center), penetration testing, or bug bounty

Build a portfolio: Show real experience

Step 4: Apply to High-Salary Roles

Job Title Avg Salary in India

Penetration Tester ₹6–12 LPA

Cybersecurity Analyst ₹5–10 LPA

Security Consultant ₹10–15+ LPA

Cloud Security Engineer₹15–30 LPA

Bug Bounty Hunter Unlimited ⑤ (some earn ₹50+LPA)

☐ Target companies: Google, Microsoft, Amazon, Infosys, Deloitte, Accenture, EY, Palo Alto Networks, etc.

M How Long to Reach ₹15 LPA?

Fast Track: 2–3 years (with OSCP, strong portfolio, and job)

Normal Track: 4–5 years (starting from ₹4–6 LPA, growing fast)

□ Summary

To earn ₹15 LPA in Cybersecurity:

- ✓ Start Diploma + Practice
- ✓ Earn CEH + OSCP certifications
- ✓ Do real-world projects / internships
- ✓ Apply to top firms or do bug bounty
- ✓ Always keep learning & improving

Want Me to Guide You?

Just tell me:

When are you starting your diploma?

Want online or offline certifications?

Budget for certifications?

I can:

Plan your entire career roadmap to ₹15 LPA

Suggest the best places to learn

Share free + paid resources to level up fast

You said:

i am beginer can i jion

ChatGPT said:

Absolutely YES!

You can 100% join cybersecurity and ethical hacking as a beginner — even with zero experience — especially since you're from a PCMC (Computer Science) background. You're already in a great starting position.

- ☐ YES, Beginners Are Welcome in Cybersecurity!
- Why You're Ready:
- You know basic computer & science (from 12th PCMC)

- You're interested (that's the #1 requirement!)
- X You don't need prior hacking or coding experience
- Most beginner-friendly courses start from zero
- □ Beginner Roadmap to Start Cybersecurity
- Step 1: Start with a Beginner-Friendly Course You can choose:
- Diploma in Ethical Hacking / Cybersecurity(Offline)
- Online Free Courses (if you want to try first)
- Best Beginner Courses (Free or Paid): Google Cybersecurity Certificate (Coursera) beginner level, no coding

TryHackMe – Free Beginner Path – Learn real hacking in labs

Introduction to Cybersecurity (Cisco NetAcad) – 100% Free

Udemy – Ethical Hacking for Beginners – ₹399 (check sales)

YouTube channels: "NetworkChuck", "Null Byte", "Hackersploit"

% Step 2: Learn Basics First

Focus on:

✓ Networking (how internet works)

✓ Operating Systems (Linux basics)

✓ Hacking Tools (Kali Linux, Wireshark, Nmap)

Cyber Laws and Safety

You can learn these in any diploma course or even online.

☐ Step 3: Practice in Labs (Even from Home)

Start practicing on free platforms:

TryHackMe (beginner labs)

Hack The Box

OverTheWire

CyberDefenders

You don't need a high-end laptop — basic system + internet is enough.

Final Answer:

Yes, you can join cybersecurity as a beginner.
You don't need KCET, a degree, or experience.
Just start with a diploma course or online learning, and I'll guide you.

Would you like:

Best beginner diploma course near your area (Gujarat or Bangalore)?

Or a 100% online beginner path to try from today?

Tell me, and I'll help you step-by-step 💻 🖺

You said:

how more and more salary now a days which is best

ChatGPT said:

Great question! You're aiming for a high salary, so let's break it down.

Which Tech Field Gives the Most Salary in 2025+?

Here's a list of the top-paying tech fields — even for students starting out (like you):

- 1. Cybersecurity & Ethical Hacking
- Salary: ₹6–15 LPA (entry to 3 years)

Global demand, remote jobs possible
Best roles:
Penetration Tester
Cybersecurity Analyst
Bug Bounty Hacker (can earn ₹50L+ if skilled)
You already chose this — and it's one of the best!
2. Data Science / Artificial Intelligence (AI) Salary: ₹8–20+ LPA (within 2–4 years)
☐ Companies need data experts for AI, predictions, automation
Q Best roles:

Data Scientist

Machine Learning Engineer

Al Researcher

Requires strong Python, statistics, and practice

3. Cloud Computing (AWS, Azure, GCP)

Cloud engineers are needed to run company apps and services

○ Best roles:

Cloud Architect

DevOps Engineer

AWS Security Specialist

☐ Great to combine Cybersecurity + Cloud

4. Blockchain & Web3 Development

₹10–30+ LPA (niche field)

☐ Roles:

Smart Contract Developer

Blockchain Security Auditor

But risky if the crypto market is unstable

5. Full Stack Web & App Development

Build websites, apps (like Instagram, WhatsApp clones)
So, What's BEST for YOU? As a PCMC student + beginner, the best and most realistic path to high salary is:
Cybersecurity + Cloud + Certifications Why?
Cybersecurity has huge demand
Cloud makes you more valuable to companies
Certifications (CEH, OSCP, AWS Security) bring ₹15–25 LPA jobs
☐ Your Winning Path to High Salary
Year What to Do Goal

- 1 Diploma + Start CEH Learn hacking
- 2 Certification (Security+ / CEH) + TryHackMe labs Start freelancing/job
- 3 OSCP / AWS Security + Job Reach ₹8-15 LPA
- 4+ Specialize (Cloud + Cyber) ₹15–25+ LPA

Bonus Tip:

If you're good at bug bounty hunting, you can earn ₹1 lakh to ₹50 lakh from companies like Google, Apple, Facebook.

▼ Want to start today?

Tell me:

You want online or offline path?

What's your budget for courses?

I'll help you get started with:

- Best free/paid course
- College or institute suggestions

Let's make that ₹15+ LPA dream real!

You said:

Diploma + Start CEH Learn hacking

- 2 Certification (Security+ / CEH) + TryHackMe labs Start freelancing/job
- 3 OSCP / AWS Security + Job Reach ₹8–15 LPA

4+ Specialize (Cloud + Cyber) ₹15–25+ LPA

ChatGPT said:

Perfect! You're now looking at one of the smartest career blueprints to reach ₹15–25+ LPA in Cybersecurity. Let's now break each year step into what to do, tools to use, and goals to hit — even as a beginner.

4-Year Cybersecurity Roadmap to ₹15–25+
 LPA

Year 1: Diploma + Start CEH (Certified Ethical Hacker)

Soal: Build your foundation in hacking & security.

What to Learn:

Networking basics (IP, DNS, firewalls)

Kali Linux, Nmap, Wireshark, Metasploit

Cyber laws, vulnerability scanning, OWASP Top 10

What to Do:

- Join Diploma in Ethical Hacking / Cybersecurity
- Start preparing for CEH (Certified Ethical Hacker)
- ✓ Use platforms like:

TryHackMe – Complete Beginner Path

Hack The Box – Starting Point

Outcomes:

Learn practical skills

Build small projects or blogs on what you hack

Understand real-world cyber threats

- Year 2: Get Certified (Security+ / CEH) + Practice Labs
- Soal: Build your resume with certification + practical labs

What to Do:

- ✓ Take CompTIA Security+ (easiest starter cert)
- ✓ Or complete CEH Exam (if not done in Year 1)
- ✓ Join bug bounty platforms: HackerOne, Bugcrowd
- Continue lab practice (TryHackMe, HTB, CyberDefenders)

Start Freelancing:

Offer basic security testing services (Fiverr, Upwork)

Do internships or part-time cyber analyst jobs

Outcomes:

Start earning (freelance/intern)

Resume now shows real-world experience + certification

Year 3: Go Pro — OSCP or AWS Security + Job

Soal: Become an advanced security pro and get hired full-time

What to Do:

✓ Take OSCP (Offensive Security Certified Professional)

Best for penetration testers

Needs hard work, real hacking, and report writing

✓ OR take AWS Certified Security – Specialty

Learn cloud + security = 🖒 hot combo

Apply for Jobs:

Security Analyst

Penetration Tester

Cloud Security Associate

Outcomes:

Salary range: ₹8–15 LPA (even more in MNCs or abroad)

Year 4+: Specialize in Cloud + Cyber + Red Team Tools

Goal: Become a highly-paid expert

What to Learn:

Cloud platforms: AWS, Azure, Google Cloud

Tools: Burp Suite, Cobalt Strike, SIEM, Splunk

Red Team/Blue Team techniques

Take Advanced Certs:

CISSP

CCSP

GCP Security Engineer

Bug bounty full-time (many make ₹50L+ per year)

Outcome:

Salary: ₹15–25+ LPA or international offers

Tools & Resources (Use Throughout)

Tool / Platform Type

Practice Labs TryHackMe, Hack The Box, PortSwigger

Certifications CEH, Security+, OSCP, AWS

Freelance Work Fiverr, Upwork, Internshala

Resume / Blogs LinkedIn, Medium, GitHub

Learning YouTube (NetworkChuck, John Hammond), Udemy, Coursera

□ Summary

Your Focus Your Reward Year

Learn hacking, join diploma, start CEH Year 1 Skills foundation

Year 2 Certification + real-world labs Freelance or internships

Year 3 OSCP or AWS + full-time job ₹8–15 LPA

Year 4+ Specialize in cloud + cyber ₹15–25+ LPA / Global jobs

Want to Start Now? Just say: "Show me the best diploma course to start" OR "Give me a list of free beginner tools to start learning today" Let's begin the journey to ₹15–25 LPA 🏝 🔊 You said:

diplome is 1 year?

ChatGPT said:

Yes! A Diploma in Ethical Hacking or Cybersecurity is typically 1 year long — perfect for beginners like you who want to enter the tech world fast.

▼ Diploma Duration Details

Type of Diploma Duration Ideal For

☐ Basic Certificate 3 to 6 months Fast start, online or offline

☐ Professional Diploma 1 year Best for beginners like you

Advanced Diploma 1.5 to 2 years Deep study (includes forensics, cloud, etc.)

What You'll Learn in a 1-Year Diploma

✓ Networking (LAN, DNS, IP)

- ✓ Linux & Kali Linux
- Ethical Hacking tools (Nmap, Wireshark, Metasploit)
- Cyber laws, phishing, password attacks
- Introduction to penetration testing
- ✓ Web, system, and network security
- Basic forensics and malware analysis
- (2) It's usually 70% practical + 30% theory.
- Where Can You Join a 1-Year Diploma?

 Here are some trusted institutes that offer 1-year diplomas:

In India (Offline + Practical):

Jetking Infotrain – Diploma in Ethical Hacking (1 year)

IIHT (Indian Institute of Hardware Tech) – Cybersecurity diploma (1 year)

Appin Technology Lab – Advanced Diploma in Cybersecurity (1 year)

Network Bulls - Cybersecurity courses with labs

Online:

Indian Cyber Security Solutions (ICSS) – 1-year advanced diploma

Coursera (Google Cybersecurity Certificate) – 6–8 months, can continue into advanced

☐ Admission Requirements:

12th pass (PCMC is perfect)

No entrance test

Basic computer knowledge

Fees: ₹30,000 – ₹80,000 (approx, varies by institute)

☐ Want me to recommend the best 1-year diploma for you based on your city or online?

Just tell me:

Your city or state (for offline options)?

Or prefer 100% online?

Your budget?

I'll give you the best 1-year diploma options and help you get started fast.

You said:

t want advance diplome

ChatGPT said:

Perfect! You're aiming for an Advanced Diploma in Ethical Hacking & Cybersecurity — great decision!

An Advanced Diploma is deeper, more professional than a basic 1-year diploma. It usually lasts 1.5 to 2 years and includes real-world hacking tools, cloud security, forensics, and sometimes job/internship support too.

What is an Advanced Diploma in Ethical Hacking / Cybersecurity?

Q Feature □ Details

Duration 18 to 24 months (1.5 to 2 years)

≅ SubjectsHacking, Network Security, Penetration Testing, Malware Analysis, Cyber Forensics, Cloud Security

© Outcome Ready for high-paying jobs, internships, or certification exams (like CEH, OSCP)

What You Will Learn (Topics)

Computer & Network Fundamentals

Linux (Kali) & Command Line Tools

Certified Ethical Hacking Techniques

WiFi Hacking, Phishing, Keylogging

Web App Hacking (OWASP Top 10)

Penetration Testing Techniques

Cyber Forensics & Incident Handling

Cloud Security (AWS / Azure)

Bug Bounty, Capture The Flag (CTF) Labs

Tools: Nmap, Metasploit, Wireshark, Burp Suite, Nessus, JohnTheRipper

- Best Institutes Offering Advanced Diploma (India)
- 1. Appin Technology Lab

Course: Advanced Diploma in Cybersecurity &

Forensics

Duration: 18-24 months

Location: Ahmedabad, Bangalore, Delhi, etc.

Website: appinonline.com

Course: Master Diploma in Cybersecurity & Ethical

Hacking

Duration: ~2 years (with hands-on + internship)

Location: Pan India (Ahmedabad, Bangalore, etc.)

jetking.com

3. IIHT (Indian Institute of Hardware Tech)

Course: Advanced Diploma in Cybersecurity

Duration: 1.5 to 2 years

Labs + global cert training (CEH)

iiht.com

4. ♦ ICSS (Indian Cyber Security Solutions) – Online

Course: Advanced Diploma in Cybersecurity (Online + Internship)

Duration: 1.5 years

indiancybersecuritysolutions.com

5. RedTeam Hacker Academy

Course: Advanced Diploma in Cybersecurity & PenTesting

Includes CEH & OSCP training

Location: Kochi (offers online too)

redteamacademy.com

Fees (Estimated)

Institute Fees (Total)

Appin Labs ₹80,000 – ₹1.2 Lakhs

Jetking ₹1.2 – ₹1.8 Lakhs

IIHT ₹1 – ₹1.5 Lakhs

ICSS (Online) ₹50,000 - ₹80,000

RedTeam ₹1.2 – ₹2 Lakhs (depends on course depth)

□ What You Can Do After This Diploma

Work as:

Penetration Tester

Security Analyst

Malware Analyst

SOC Engineer

Cybersecurity Consultant

⑤ Salary: Start with ₹4–6 LPA → Grow to ₹12–25 LPA within 2–4 years

Go for CEH / OSCP / CompTIA Security+ / AWS Security Certification

Perfect! You want an offline Advanced Diploma in Ethical Hacking & Cybersecurity — that's excellent for hands-on learning, direct mentoring, and real-time lab access.

Best Institutes in India Offering Offline Advanced Diploma (1.5 to 2 years)

Here are trusted, career-focused institutes where you can study offline, especially as a beginner from Karnataka:

♦ 1. Jetking Infotrain – Multiple Cities (incl. Bangalore, Ahmedabad)

© Course: Master Diploma in Cybersecurity and Ethical Hacking

Duration: ~1.5 to 2 years

☐ Covers: CEH topics, Network & Cloud Security, SOC tools

Internship + Placement assistance
Website: www.jetking.com
2. Appin Technology Lab – Ahmedabad / Surat/ Bangalore
© Course: Advanced Diploma in Cybersecurity & Digital Forensics
© Duration: 1.5 to 2 years
Includes: Hacking Tools, Malware Analysis, Cyber Law, Internship
Cocations: Ahmedabad, Surat, Delhi, Bangalore
Website: www.appinonline.com

- 3. IIHT Bangalore / Ahmedabad / Rajkot
- © Course: Advanced Diploma in Network & Cyber Security
- (L) Duration: 18–24 months
- Tools: Wireshark, Metasploit, Nmap, Burp
 Suite
- Website: www.iiht.com
- 4. RedTeam Hacker Academy Kochi (Offline + Global Certifications)
- © Course: Advanced Diploma in Cybersecurity + OSCP Track

- ☐ Covers CEH, OSCP, Blue Team, Red Team Tools
- Offers offline classes with deep lab training
- Cocation: Kochi, Kerala (they're well-known nationwide)
- Website: www.redteamacademy.com
- ♦ 5. Indian Cyber Security Solutions (ICSS) –Kolkata (with Offline Batch)
- © Course: Advanced Diploma in Ethical Hacking & Pen Testing
- Mostly online, but offers offline batches in Kolkata, Bangalore (on request)
- Website:
 www.indiancybersecuritysolutions.com

□ Documents Required10th & 12th Marksheet

Aadhar Card

Passport-size Photos

Application Form (online/offline)

TC / Migration (if needed)

Estimated Fees (Full Course)
Institute Approx Fees (INR)
Jetking ₹1.2 – ₹1.8 Lakhs
Appin Labs ₹80K – ₹1.2 Lakhs
IIHT ₹1.2 – ₹1.5 Lakhs
RedTeam ₹1.5 – ₹2.5 Lakhs
ICSS ₹60K – ₹90K

Here's your full list of best global certifications that can help you reach ₹10 LPA, ₹15 LPA, ₹25+ LPA or even international remote jobs.

- Top Certifications for High Salary in Cybersecurity
- ☐ Certification 🖒 Salary Boost 🗀 Level 🔞 Cost (Approx)
- CEH (Certified Ethical Hacker) ₹6–12 LPA Beginner–Mid ₹40K–₹60K
- ✓ OSCP (Offensive Security) ₹10–25+ LPA Advanced ₹1.2L+

- CompTIA Security+ ₹5–10 LPA Beginner ₹30K
- CISSP (Certified Info Systems Security Pro)
 ₹15–30 LPA Senior ₹70K–₹1L
- CCSP (Certified Cloud Security Professional)
 ₹15–25 LPA Mid–Senior ₹60K–₹90K
- AWS Certified Security Specialty ₹10–20 LPA Mid-Level ₹15K–₹25K
- Google Cybersecurity Certificate ₹5–8 LPA Beginner ₹0–₹5K
- Bug Bounty (Not a cert, but real money!) ₹1L–
 ₹50L+ Any level Free (You earn!)
- What You Should Do (Beginner to Pro Path)
- ☐ Beginner (Year 1)

Google Cybersecurity Certificate (via Coursera)

CompTIA Security+

TryHackMe learning path (free + cheap)

- Intermediate (Year 2–3)
- ✓ CEH (must-do)
- OSCP (if you want high-skill penetration testing)
- Start bug bounty hunting (HackerOne, Bugcrowd)
- Pro Level (Year 3–5)
- CISSP or CCSP
- ✓ AWS Security or GCP Security
- Lead teams, do audits, apply to big tech companies

□ Want ₹25+ LPA?

You don't need a degree if you have:

- ✓ Real experience (labs, bug bounties, internships)
- ✓ Big certifications (OSCP + AWS + CISSP)
- ✔ Portfolio (GitHub, LinkedIn, write blogs)
- You Asked: "What certs for more salary?"

vbnet

Copy

Edit

- ☐ Step 1: CompTIA Security+ → ₹5–8 LPA
- □ Step 2: CEH → ₹6–12 LPA
- ☐ Step 3: OSCP → ₹12–25 LPA
- Step 4: AWS Security / CCSP → ₹15–30 LPA
- \$\frac{1}{\sqrt{20}}\$ Step 5: CISSP \rightarrow ₹20-50 LPA (leadership)

Want Me to:

Suggest free/cheap places to do these certs?

Make a learning schedule for you?

& Help find classes near you (Jetking, Appin, etc.)?

Reply with:

 You said:

can i take all cerf?

ChatGPT said:

YES! You can take all the certifications — and if you do, you'll be one of the most powerful cybersecurity professionals in the world.

But \wedge you should not take them all at once. Instead, follow a smart step-by-step plan (because each cert needs time, practice, and money $\langle 5 \rangle$).

- ☐ Reality Check: Can You Take All Cybersecurity Certs?
- ② Question
 ✓ Answer

Can a beginner take all certs? Yes, but in order Do you need a degree? No, certs + skills = job Can you earn ₹15–25 LPA from certs alone? YES, with experience

- ☐ Perfect Certification Plan for You

Start here to build your foundation:

- ✓ Google Cybersecurity Certificate (via Coursera easy + job-ready)
- CompTIA Security+ (simple, affordable, jobfocused)
- These give you your first job/internship in cybersecurity
- Intermediate Phase (6–18 months)

 Now add power and real hacking:
- ✓ CEH (Certified Ethical Hacker)
- Start TryHackMe, Hack The Box, bug bounty platforms

- Optional: Linux+, Network+
- PA At this point, you can start earning ₹6–10 LPA
- Advanced Phase (1.5–3 years)

 Go big! Specialize & become pro-level:
- ✓ OSCP world-famous cert for real hackers
- ✓ AWS Security Specialty or GCP Security
- Start applying to MNCs, security firms, bug bounty programs
- Salaries of ₹12–25 LPA are realistic here
- Expert Phase (3–5 years)

You are now a boss-level security pro:

CISSP – Security Manager / Team Lead / **Auditor roles**

CCSP – Cloud Security Specialist

Salaries: ₹20–50 LPA (India & abroad), remote jobs, US/UK offers

Can You Take All Certs? YES — But in This Order:

txt

Copy

Edit

1. Google Cybersecurity / CompTIA Security+

- 2. CEH 🗸
- 3. OSCP / AWS Security
- 4. CISSP / CCSP
- **%** Cost to Plan For:

Cert Approx Cost

Google Cyber ₹0–₹6K (Coursera)

Security+ ₹30K-₹35K

CEH ₹40K-₹70K

OSCP ₹1.2L+

AWS Security ₹15K-₹25K

CISSP / CCSP ₹60K-₹1L

You can do all this in 2–4 years, and your total cost is less than one B.Tech degree, but the salary is 2x more!

✓ Want a Personal Plan?

I'll create a custom certificate roadmap for you based on:

Your budget (\$)

Your speed 😭 or 🗳

Your goal: ₹15LPA, ₹25LPA, or even more

Just say:
"Make my certification roadmap" And I'll build the exact order, sites to use, and how long it will take.
You said: give me in ordrr of certf for beg to advan
ChatGPT said:

Absolutely! Here's your perfect certification roadmap — in correct order from beginner to advanced, designed to take you from zero to ₹25+ LPA in cybersecurity and ethical hacking. ✓

- Cybersecurity Certification Path: Beginner → Advanced
 Order ☐ Certification ☐ Focus Area ☐ ☐
 Who Should Do It ☐ Salary Potential
 Google Cybersecurity Certificate (via Coursera) Basics of cybersecurity, tools, and jobready skills Absolute beginners (even no coding) ₹4–8 LPA
 CompTIA Security+ Network & system
- CompTIA Security+ Network & system security fundamentals Beginners who want a global cert ₹5–10 LPA
- 3 CEH (Certified Ethical Hacker) Ethical hacking tools, real-world attacks Beginner–Intermediate ₹6–12 LPA
- CompTIA Pentest+ (Optional) Penetration
 Testing Those focusing on pen testing ₹6–10
 LPA

OSCP (Offensive Security Certified Professional) Advanced hacking & exploit writing Intermediate-Advanced hackers₹12-25+ LPA

6 AWS Security Specialty (or Azure/GCP Security) Cloud security Intermediate with cloud interest ₹10-20 LPA

 □ CISSP (Certified Information Systems Security) Professional) Management, policies, enterprise security Senior roles, managers ₹20-40+ LPA

CCSP (Certified Cloud Security Professional) Cloud & enterprise security combined security pros ₹20-35 LPA

Visual Path: What to Do When

 F --> G[CCSP];
 D --> H[CISSP];
☐ Suggested Timeline (If You're Serious)
       What to Do Certifications
Year
       Learn basics + get internship
Year 1
                                       Google
Cybersecurity, Security+
Year 2 Start real hacking, lab work, jobs
                                           CEH,
TryHackMe, HTB
Year 3 Specialize in pen testing / cloud OSCP,
AWS Security
Year 4+ Get leadership/security architect roles
    CISSP, CCSP
Bonus: Practice Platforms Alongside Certs

    TryHackMe → For CEH & OSCP prep
```

□ Hack The Box (HTB) → Real-world hacking labs

□ PortSwigger → Web security practice (Burp Suite)

Bugcrowd / HackerOne → Real bug bounty income

Summary (for You)

Level Do These Certs Earn This Much

Beginner Google Cyber, Security+ ₹4–8 LPA

Intermediate CEH, Pentest+ ₹6–12 LPA

Advanced OSCP, AWS Security ₹12–25 LPA

Pro CISSP, CCSP ₹20-50 LPA

Want Me to Help You Pick Where to Start Based on Budget or Offline/Online?

Just reply:

"Start my cert plan – ₹ range is and I prefer (offline/online)"
I'll tell you exactly where to study, how to apply, and how fast you can earn. Let's go! 💻 取
You said:
how year needs for this to complete all
ChatGPT said:
Great question! Let's now answer:

(L) "How many years to complete all cybersecurity certifications (from beginner to advanced)?"

✓ Simple Answer:

You can complete all major cybersecurity certifications in about 3 to 4 years (realistically), even starting as a complete beginner.

- Certification Timeline Breakdown (Realistic)
- ☐ Google Cybersecurity Certificate2–3 months Month 1–3
- 2 CompTIA Security+ 3–4 months Month 4–7
- 3 CEH (Certified Ethical Hacker) 4–6 months Month 8–13
- 4☐ CompTIA Pentest+ (optional) 3–4 months
 Month 13–17
- **5**□ OSCP (Advanced Hacking) 6–8 months Year 2–3
- 6☐ AWS Security Specialty 4–5 months Year 3

- You don't have to wait to finish all before applying to jobs.
- ☐ After CEH + Security+, you can get jobs/internships (₹5–8 LPA).

After OSCP or AWS Security → ₹10–25+ LPA jobs become possible.

© CISSP requires 5 years work experience (but you can study early).

□ Want to Finish Faster?

Yes, you can finish faster (within 2–2.5 years) if you:

Study 4-6 hrs/day

Practice daily (TryHackMe, HackTheBox)

Skip optional certs (like Pentest+)

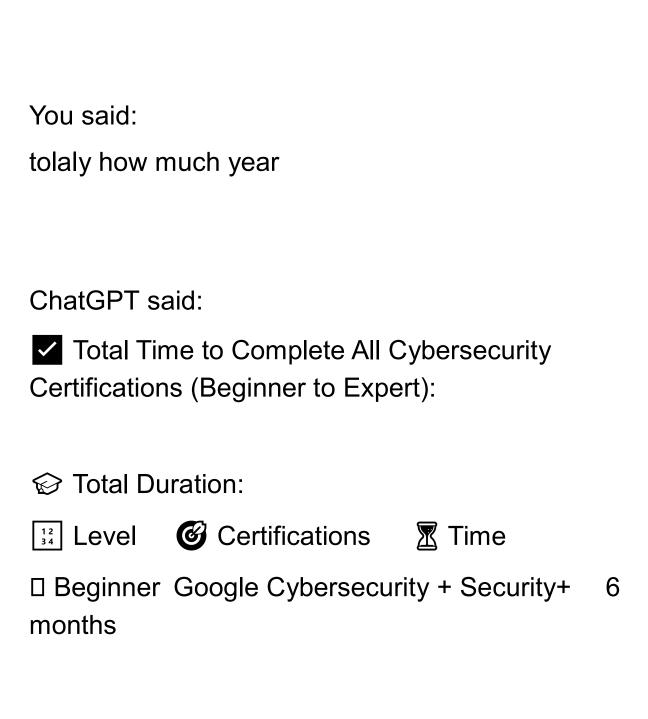

Take OSCP right after CEH

I can even build a 2-year FAST TRACK plan for you if you like.

□ Final Summary
Path Duration
Normal Track (safe, realistic) 3–4 years
Fast Track (intense, focused) ② 2–2.5 years
Would you like me to now:
Build your monthly plan?
☐ Help find places to enroll now?
Give you the fastest plan possible?
Just say:

"Make my 2-year fast plan with CEH, OSCP, AWS Security, and CISSP"

And I'll give you the full roadmap today!

Intermediate CEH + Pentest+ 6–9 months

Advanced OSCP + AWS Security 12–15 months

Expert CISSP + CCSP 12 months (CISSP needs experience)

☐ Final Answer:

☆ Normal Track (Relaxed pace + full understanding):

Fast Track (Focused study, no delays):

(a) Important:

You don't have to wait 4 years for a job.

You can start earning after just 1 year with:

Security+

- ✓ TryHackMe practice
- ✓ Internship/project experience

Even then, you can get jobs around ₹5–10 LPA, and keep leveling up from there.

Would you like me to:

Build a month-by-month study plan?

Recommend affordable places to get certified?

You said:

can i take this certfs in 3years

ChatGPT said:

YES! You can absolutely complete all major cybersecurity certifications in just 3 years.

If you're focused and serious, 3 years is enough time to go from beginner to expert and start earning ₹10–25+ LPA.

☐ 3-Year Certification Roadmap (Full Plan)
Here's how to complete ALL important
certifications in just 3 years:

☐ Year 1 – Beginner Level
Goal: Build strong foundation + get job/internship
Certifications:
Google Cybersecurity Certificate (3 months)
CompTIA Security+ (3 months)
✓ CEH (Certified Ethical Hacker) (6 months)
□ Practice:
TryHackMe beginner path
Cyber labs & basic tools: Kali Linux, Nmap, Wireshark
Outcome:
Eligible for jobs like: Security Analyst, SOC Analyst

Year 2 – Intermediate/Advanced Level
Goal: Master real-world hacking + specialize in cloud
Certifications:
✓ OSCP (Offensive Security Certified Pro) (8 months)
✓ AWS Certified Security – Specialty (4 months)
□ Practice:
Hack The Box, Bug Bounty (HackerOne, Bugcrowd)
Real-world report writing & penetration testing
Outcome:
Jobs: Penetration Tester, Cloud Security Analyst

Salary range: ₹5–8 LPA

Salary range: ₹10-20 LPA Year 3 – Pro Level (Leadership & Cloud Security) Goal: Prepare for top-level security roles **Toleronal Certifications:** CISSP (6–9 months) (Note: needs 5 yrs exp, or you can get Associate of CISSP) CCSP (Cloud Security Pro) (4–6 months) □ Work: Lead projects, mentor juniors, build resume/portfolio Apply for MNCs or international jobs (remote) Outcome:

Roles: Security Consultant, Security Architect,

Team Lead

Salary: ₹20–30+ LPA possible

☐ Summary: 3-Year Certification Plan

Year Certifications Job Level Salary

- 1 Google Cert, Security+, CEH Entry ₹5–8 LPA
- 2 OSCP, AWS Security Mid ₹10-20 LPA
- 3 CISSP, CCSP Expert ₹20-30+ LPA
- Can You Do It? YES, If:

You stay consistent (2-3 hrs/day study)

Practice labs + theory

Do internships/freelancing for experience

Want me to build a monthly study plan to finish these in 3 years? Just say: "Make my 3-year plan with CEH, OSCP, AWS, CISSP" And I'll give you the full detailed schedule & You said: which is the best college to learn cybersecurity in kar (not on kcet conserdering boards)

ChatGPT said:

Great question! Since you don't want to go through KCET, but want to study Cybersecurity in Karnataka, here are the best colleges and institutes that accept direct admission (based on board marks) — no KCET required

Top Cybersecurity Colleges in Karnataka (No KCET Needed)

Course: B.Sc in Cybersecurity / BCA in Cybersecurity / PG Diploma

🖈 Location: Jayanagar / Kanakapura Campus

Admission: Based on 12th marks (No KCET)

Industry-oriented curriculum, strong placement cell

⑤ Fees: ₹80K – ₹1.2L per year

Website: www.jainuniversity.ac.in

Course: BCA with specialization in Ethical Hacking / Cybersecurity

& Location: Bagalur Main Road, Bangalore

Admission: Direct (12th pass, no entrance)

□ Labs for hacking, network defense, and forensics

(₹) Fees: ₹90K – ₹1.3L per year

Website: www.cmr.edu.in

& Location: Carmelaram, Bangalore

Admission: Based on board marks (No KCET)

§ Fees: ₹70K – ₹1L per year

Website: www.krupanidhi.edu.in

🖈 Location: Rajanukunte, Bangalore

Admission: Based on 12th marks (Board-based)

- Has industry tie-ups & workshops
- § Fees: ₹1L ₹1.5L per year
- Website: www.presidencyuniversity.in
- 🖈 Location: Yelahanka, Bangalore
- Admission: Board-based (or REVA Entrance Test optional)
- © Cybersecurity Lab, real-time tools, CEH training
- § Fees: ₹1L ₹1.6L per year

Website: www.reva.edu.in

☐ Eligibility for All:

✓ 12th pass (PCMC, PCMB, Commerce – all accepted)

✓ No KCET required

English subject mandatory in some colleges

Suggestion: Best Pick for You

Type Best College

✓ Most affordable Krupanidhi College

☐ Most practical labs + placement Jain University

Best reputation REVA or CMR University

You said:

bca or bscor b.tech best is best to learn cybersecurity

ChatGPT said:

Great question! Let's break it down very clearly. You want to know:

Which is best for Cybersecurity: BCA, B.Sc, or B.Tech?

(In terms of salary, skills, and future career)

Quick Answer: B.Tech > B.Sc > BCA (for cybersecurity)

But the best one for you depends on:

- Factor Best Option Highest salary, future growth B.Tech Affordable + science-based B.Sc in Cybersecurity ☐ Comparison: BCA vs B.Sc vs B.Tech for Cybersecurity B.Sc (Cybersecurity) B.Tech Feature BCA (CSE with Cybersecurity) 3 years 3 years 4 years Duration Coding focus Moderate Moderate High Cybersecurity depth Basic Good Excellent Job-readiness Medium High Very High Average salary (start) ₹3–6 LPA ₹4–8 LPA ₹6-12 LPA Certifications needed? Yes Yes Optional (comes inbuilt)
- Future roles Support, Analyst Analyst, SOC Pen Tester, Security Architect
 International scope Less Medium High

- Final Recommendation Based on Your Goal Your Goal Best Choice
- Want high salary (₹15–25 LPA)
 CSE with Cybersecurity)
- Want affordable course + job
 ✓ B.Sc in
 Cybersecurity

Pro Tip:

No matter which course you choose, if you add CEH, OSCP, or AWS Security certifications, you can get top jobs even with BCA or B.Sc.

So, What Should You Do?

Question Answer

Want to learn deeply + build a long career?

Budget is tight but still want a good job? Go for B.Sc in Cybersecurity

Want a simple start and quick entry into jobs?

BCA + CEH/OSCP

Do you want help choosing the best college based on your choice and budget?

Just tell me:

§ Your budget

Your preferred city (e.g., Bangalore, Mysore)

And I'll find the best college for cybersecurity for you.

You said:

b.teck,90000to120000,bangalore or mysore

ChatGPT said:

Perfect! You're looking for:

B.Tech in Cybersecurity or CSE with Cybersecurity

Budget: ₹90,000 to ₹1.2 Lakhs per year

↑ Location: Bangalore or Mysore

X Without KCET

You're in a great position — there are solid options that match your criteria. Here's a list:

Best B.Tech Colleges for Cybersecurity
In Bangalore & Mysore (No KCET, Budget-Friendly)

Course: B.Tech in Computer Science with Cybersecurity electives

✓ Direct admission via 12th marks (no KCET)

Fees: ~₹1.1 Lakhs/year

dbit.edu.in

2. Brindavan College of Engineering –Bangalore

Course: B.Tech CSE with Cybersecurity modules

- Direct Admission, No KCET
- § Fees: ₹90K ₹1.1L/year
- Yelahanka, Bangalore
- brindavancolleges.com

Course: B.Tech in CSE (Cybersecurity as specialization)

- ✓ No KCET needed (board-based admission)
- § Fees: ₹90K ₹1L/year
- Pannur Road, Mysore

widyavikas.edu.in

Course: B.Tech CSE (Cybersecurity available as electives)

✓ 12th-based admission (no KCET)

§ Fees: ₹1.1L/year

Off Hosur Road, Bangalore

bti.ac.in

Course: B.Tech in CSE with optional Cybersecurity

✓ Direct admission, low cut-off

§ Fees: ₹1.2L/year

Avalahalli, KR Puram

eastpoint.ac.in

Eligibility:

12th Pass (PCMC)

45% or more (some colleges need 50%)

No KCET required

Basic documents: Marks card, Aadhaar, photos

Suggested College (For You):

Goal Suggestion

- Lowest fees in Mysore Vidyavikas Institute
- Best placement + Bangalore Don Bosco Institute
- ✓ Easy admission, decent faculty Brindavan or East Point

I can:

Share admission contact numbers &

Help you apply online

Guide on documents + hostel options 🏦

Just tell me which college you're interested in, and I'll help you take the next step

You said:

how much percentage need to jion the college?

ChatGPT said:

Great question! Here's the clear answer for percentage needed to join B.Tech Cybersecurity / CSE in Bangalore or Mysore colleges (without KCET):

- Minimum 12th Percentage Required for Direct Admission
- PCMC / PCMB (Karnataka PUC or CBSE/ICSE)
- 45% aggregate in PCM (Physics + Chemistry + Math)

Some private colleges ✓ Accept 40% – 50% (depending on seat availability)

Top private universities (like Jain, REVA)Prefer 60%+, but 50% is often accepted for management quota

Example College Requirements:

♣ College Required %

Don Bosco Institute – Bangalore 45% PCM minimum

VidyaVikas – Mysore 45% PCM minimum

Brindavan College – Bangalore 40% – 45% PCM accepted

East Point College – Bangalore 45%+ in PCM, English mandatory

Important Notes:

English must be one of the subjects in 12th

PCM (Physics, Chemistry, Math) average matters — not total marks

X No entrance exam or KCET is required for management quota

☐ So if you have:

45% or more in PCM → You can join most B.Tech Cybersecurity colleges

50%+ → You're eligible for all private colleges easily

60%+ → You can also apply for scholarships in some colleges

If you tell me your exact % in PCM, I'll suggest which colleges will accept you right now — and help you apply if you want. ✓

You said:

what are sub in that cours

ChatGPT said:

Great! You're asking:

What are the subjects in B.Tech CSE with Cybersecurity specialization?

Here's the full breakdown — from 1st year to 4th year, including core computer science + deep cybersecurity topics. This will give you a clear idea of what you'll learn.

B.Tech in CSE (Cybersecurity Specialization) – Subjects Year-wise

☐ Year 1 – Foundation (Same for all B.Tech CSE)

Semester Subjects

Sem 1 - Engineering Mathematics

Physics/Chemistry

Programming in C

Basic Electrical & Electronics

Communication Skills

Environmental Studies

| Sem 2 | - Data Structures

Discrete Mathematics

Object-Oriented Programming (C++)

Digital Logic Design

Engineering Drawing

Lab (C/C++, Data Structures) |

Year 2 – Core Computer Science

Semester Subjects

Sem 3 - Computer Architecture

Operating Systems

Database Management Systems

Java Programming

Computer Networks

Labs (Java, DBMS) | | Sem 4 | - Design & Analysis of Algorithms

Web Technologies

Python Programming

Software Engineering

Introduction to Cybersecurity (starts here)

Mini Project |

Year 3 – Cybersecurity Specialization Begins
 Semester Subjects
 Sem 5 - Cryptography & Network Security

Ethical Hacking

Linux & Shell Scripting

Advanced Computer Networks

Security Lab (Kali Linux, Wireshark, etc.) | | Sem 6 | - Cyber Laws & Digital Forensics

Web Application Security

Penetration Testing

Cloud Security

Project – Phase 1 |

Year 4 – Advanced Cybersecurity + Final Project

Semester Subjects

Sem 7 - Malware Analysis

IoT Security

Secure Coding Practices

Mobile App Security

Project – Phase 2 |

| Sem 8 | - Internship or Industry Project

Advanced Topics in Security (AI in Security, Blockchain Security)

Final Viva + Project Defense |

Outcome After Graduation

You will be ready for roles like:

Cybersecurity Analyst

👼 o Ethical Hacker / Pen Tester

☐ Security Consultant
Cloud Security Engineer
App & Network Security Specialist
☐ Bonus Tools/Platforms You'll Learn: Kali Linux
Wireshark
Nmap
Burp Suite
Metasploit
TryHackMe / Hack The Box

Splunk / SIEM tools

If you want, I can also:

Share a real syllabus PDF from one of these colleges

Help you decide which specialization fits you best

Give online free courses to start learning these now

Just reply:

"Send syllabus PDF" or "Give me beginner learning links"

You said:

in 1sem only haveing phy and chem

ChatGPT said:

Yes, you're right to ask — do B.Tech CSE students really study Physics and Chemistry in 1st semester?

Let me clarify everything for you:

⊗ B.Tech in CSE (Cybersecurity) – 1st YearSubjects Explained

☐ 1st Year (Semester 1 & 2) is a common foundation for all B.Tech students — regardless of your branch (CSE, ECE, Mechanical, etc.).

But for Computer Science / Cybersecurity, the focus is more on math and programming. Physics and Chemistry are sometimes optional or minimal.

✓ Typical 1st Semester Subjects (for CSE)

Subject Is it included? Why it's taught

Engineering Mathematics-1 Yes Core for logic & algorithms

Basic Electrical / Electronics Yes Useful for understanding hardware/security

Programming in C Yes First step into coding

Engineering Physics / Chemistry□ Sometimes (1 of them only) Just for basic knowledge

Communication / English Yes Soft skill subject

Labs (C Programming, Physics/Chem) Yes
Practical sessions

Most CSE colleges teach only one of Physics or Chemistry, not both, and just in 1 semester.

From 2nd Semester Onward: You will not study Physics or Chemistry again. Only Computer Science-related subjects like: **Data Structures Python Algorithms Operating Systems** Cybersecurity Web Hacking, etc.

☐ So Final Answer:

Question Answer

Do B.Tech CSE students study Physics & Chemistry? Yes, but only one of them (usually in 1st sem only)

Are these important for Cybersecurity? X Not much – just formality

Will you study only tech after that? Yes – all computer & security-focused from 2nd semester onward

If you want, I can share:

Real

You said:

phy or chem is not in all sem?beause i am not interst in phy or chem

ChatGPT said:

Great news for you! If you're not interested in Physics or Chemistry, don't worry — in B.Tech CSE (Cybersecurity):

Physics or Chemistry is taught only in the 1st semester (sometimes just 1 subject, not both).

After that — it's pure Computer Science + Cybersecurity.

Semester-wise Subject Overview (B.Tech CSE – Cybersecurity)

Semester Physics/Chemistry? Focus

Sem 1 Yes – only 1 subject (either Physics or Chemistry) Basic engineering foundation

Sem 2 X No Physics/Chemistry Programming, Data Structures

Sem 3–8 X Only tech subjects Coding, Hacking, Security, AI, etc.

Why They Add 1 Science Subject in Sem 1?
All engineering courses in India follow AICTE rules

That includes one basic science subject (like Physics or Chemistry) in 1st semester only

After that, the rest is 100% related to your stream (CSE)

☐ Subjects You'll Learn After Sem 1:

Python, Java, Linux

Networking & Cybersecurity

Ethical Hacking, Cryptography

Malware Analysis, Forensics

OSCP/CEH tools

Cloud Security, Web Security

✓ Final Answer

Question Answer

Will I have Physics or Chemistry in all semesters?

X No − only in 1st semester

After that – is it full computer science? ✓ Yes – 100% technical + cybersecurity

Should I worry if I don't like Physics/Chemistry?

X No need to worry at all

Do you want a sample syllabus PDF from a real college (like Jain or Don Bosco), so you can see the subjects yourself?

Just say:

[&]quot;Send me syllabus PDF"

And I'll send a real example

You said:

i want in bangulore collges

You said:

can i jion after comleteing the i year of diplomo to that

ChatGPT said:

Yes! You can join B.Tech in Cybersecurity (or CSE) after completing 1st year of Diploma — but only in some special cases.

Let me explain both possibilities clearly:

- ☐ Can I Join B.Tech After 1 Year of Diploma?
- □ Normally: No (after just 1 year)

You cannot directly join 2nd year of B.Tech after completing only 1 year of Diploma.

To join B.Tech via lateral entry, you must complete all 3 years of Diploma (full diploma).

What You Can Do Now (After 1 Year of Diploma):

Option 1: Start B.Tech from 1st Year

You can take fresh admission into 1st year of B.Tech (Cybersecurity/CSE) using your 10th & 12th marks.

If you have 12th with PCMC, you're eligible for direct admission in Bangalore colleges (no KCET required).

Diploma year will not count — but you can use the knowledge to go faster.

Option 2: Complete Full 3-Year Diploma → Join B.Tech 2nd Year

If you finish all 3 years of Diploma, you can join B.Tech 2nd year through lateral entry (no need for 1st year again).

This saves you 1 year.

You'll need to write DCET (Diploma CET) in Karnataka for government seats. Private colleges also allow direct lateral entry without DCET.

Q Summary: What You Should Do

You've done Can you join B.Tech? Year you'll enter

Only 1 year of Diploma Yes, via 12th board marks 1st year

Full 3 years of Diploma Yes, via DCET or management 2nd year

What's Best for You Now?

If you don't want to waste time, and already passed 12th PCMC:

You can join B.Tech Cybersecurity from 1st year in any of the colleges I mentioned (RNSIT, Cambridge, etc.).

Would you like help applying now to save a seat before it fills up?

Just tell me:

Did you complete 12th PCMC?

Which diploma course are you in?

Want to join 1st or 2nd year B.Tech?

I'll guide your next step 100% clearly

You said:

2

ChatGPT said:

Thanks! You said "2", which means:

You want to join 2nd year of B.Tech (Cybersecurity or CSE) after completing Diploma.

Let's go step by step. Here's everything you need to know:

✓ How to Join B.Tech (Cybersecurity) in 2nd Year After Diploma **Eligibility**: Completed 3 years of Diploma in Engineering (like Computer Science, Electronics, Information Science, etc.) ★ 1st year Diploma is not enough — full diploma is needed ✓ No need for 12th if you have a full Diploma ☐ Two Ways to Join 2nd Year B.Tech: Method Description Required DCET (Diploma CET exam – Govt colleges) Karnataka state-level entrance exam for Diploma holders Good score needed for top govt colleges Direct Admission (Private colleges) Join without DCET, through management quota Only Diploma certificate & marks needed

These colleges allow direct 2nd-year admission into B.Tech (CSE/Cybersecurity) after Diploma:

Jain University – CSE (Cybersecurity)

Direct lateral entry available

Industry certification included (CEH, AWS)

Approx. Fees: ₹1.8–2.2 Lakhs/year

Cambridge Institute of Technology

Offers CSE

You said:

which diplomo i want jion

ChatGPT said:

Great question! If your goal is to join B.Tech in Cybersecurity or CSE (Computer Science Engineering) later (in 2nd year via lateral entry), then you should choose a Diploma course that matches the Computer Science field.

Best Diploma Courses to Join for B.Tech Cybersecurity (2nd Year)

Here are the top 3 recommended diploma branches:

Diploma Branch Why It's Good

Diploma in Computer Science Engineering (CSE)

Best match – direct path to B.Tech CSE/Cybersecurity

Diploma in Information Science Engineering (ISE)

✓ Similar to CSE – accepted for lateral entry

Diploma in Electronics & Communication
Engineering (ECE) Accepted – gives tech
foundation, slightly less focused on CS

- ☐ Recommended for You:
- © Diploma in Computer Science Engineering (CSE)
- This is the best choice if your target is B.Tech Cybersecurity.

Because:

All subjects will match (coding, networking, OS, etc.)

Colleges easily allow lateral entry into B.Tech CSE/Cybersecurity

Saves time — you can directly enter 2nd year of B.Tech

Mhere to Join Diploma (in Karnataka)

Many polytechnic colleges in Bangalore/Mysore offer CSE Diploma:

SJP Polytechnic, Bangalore

Government Polytechnic, KR Circle

MEI Polytechnic, Bangalore

JSS Polytechnic, Mysore

Acharya Polytechnic, Bangalore (private)

Dayananda Sagar Polytechnic (private)

- You can apply after 10th
- X No KCET or CET is needed for diploma
- Timeline:

Step Duration

Diploma (CSE) 3 years

B.Tech (lateral entry) 3 years (join from 2nd year)

Total 6 years to complete both

Would you like me to:

Suggest best diploma colleges in your area?

Help with admission process for diploma?

Preferred city (Bangalore, Mysore, etc.) **S** Budget And I'll give your next step You said: can i jion for dip cyberseu ChatGPT said:

Yes! You can join a Diploma in Cybersecurity after 10th or 12th — it's a great starting point if you're serious about a career in Ethical Hacking, Cybersecurity, or Digital Forensics.

- Piploma in Cybersecurity Overview
- **Eligibility**:
- ✓ 10th Pass (best time to join)

OR

✓ 12th Pass (any stream – PCMC, Commerce, etc.)

- **Duration**:
- 2 to 3 years depending on the institution

Usually 3 years after 10th

Some private institutes offer 1-year or 18-month diplomas ☐ What You'll Learn: **Basics of Computer Networks & Systems** Linux, Kali Linux **Ethical Hacking tools Network Security** Web Application Security **Digital Forensics**

Cyber Laws

Colleges & Institutes Offering Diploma in Cybersecurity (Bangalore)

Institute Duration Approx Fees Mode

IIFA Lancaster College 3 years ₹80K–₹1L/year Offline (Bangalore)

Jetking Shivajinagar / Jayanagar 1–2 years ₹70K–₹1.2LOffline/Hybrid

IIHT Malleshwaram 1 year ₹60K–₹1L Offline/Online

Appin Tech Lab 1 year ₹60K–₹90K Offline/Online

RedTeam Hacker Academy (Online from Kerala) 1–1.5 years ₹90K–₹1.5LOnline + Internship

☐ After Diploma in Cybersecurity, You Can:

Path Description

Start working As Junior Security Analyst, SOC Trainee, Technical Support, etc.

Do CertificationsLike CEH, CompTIA Security+, OSCP

Final Answer:

YES — you can join Diploma in Cybersecurity right after 10th or 12th.

It's a smart step toward a cybersecurity career without going through BCA/B. Tech immediately.

Want Help Choosing a College?

Tell me:

Your current qualification (10th/12th?)

Perfect! Since you've completed PCMC (12th Science) and want a 1-year Cybersecurity course (not full diploma or B.Tech), you're eligible for professional-level certification or advanced diploma courses — and many of these lead to high-paying jobs 🖨.

✓ Best 1-Year Cybersecurity Courses After 12th (PCMC)

These are job-focused, industry-recognized courses that teach Ethical Hacking, Digital Forensics, Penetration Testing, etc. in just 12 months.

© Course Name Duration Includes

Advanced Diploma in Cybersecurity 12 months Networking, Linux, CEH, Forensics

Certified Ethical Hacker (CEH) Program 6–12 months Ethical Hacking tools & labs

Cybersecurity Analyst Program 1 year SOC, SIEM tools, Threat Hunting

- Top Institutes in Bangalore (Offline + Certificate)
- Jetking Jayanagar / Shivajinagar

© Course: Advanced Diploma in Cybersecurity & Ethical Hacking

Duration: 12 months

Fees: ₹80,000 – ₹1,20,000

✓ Hands-on with Kali Linux, Wireshark, CEH

& jetking.com

♦ IIHT – Malleshwaram

© Course: Cybersecurity & Ethical Hacking Expert

Duration: 10-12 months

Fees: ₹70,000 – ₹1,00,000

Includes CEH, Pen Testing, Security+

& iiht.com

RedTeam Hacker Academy (Online + Practical)

© Course: CPENT, CEH Master, Ethical Hacking Pro

Duration: 10-12 months

Fees: ₹90,000 – ₹1.5 L

100% online + Live projects + Internship

& redteamacademy.com

Appin Technology Lab – Bangalore

© Course: Cybersecurity & Forensics

Duration: 12 months

Fees: ₹60,000 - ₹90,000

Labs + International certification (optional)

& appinonline.com

After This 1-Year Course, You Can:

Get jobs like:

Junior Cybersecurity Analyst

Ethical Hacker Trainee

SOC Analyst

☐ Go for CEH, CompTIA Security+, OSCP to earn ₹8–15 LPA

② ★ Later join B.Tech 2nd year or B.Sc Cybersecurity (optional)

✓ Final Answer:

Yes, you can join a 1-year Cybersecurity course after 12th PCMC.

It's a smart shortcut to get skills + certifications + job fast.
